

Ohio, Indiana and Illinois Made Arms of the Sea by Unparalleled Flood Nature

FLOODS IN OHIO SWEEP
HUNDREDS TO DEATH.

Twenty-Five Thousand Are Homeless and Property Loss Is Millions.

Large Cities Thrown Into Darkness, Lit Up Here and There by Burning Buildings—Water Famine in the Midst of Rushing Waters Adds to Distress—National Guard and Naval Reserves Called Out.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

CLEVELAND (O.) March 25.—[Special Dispatch.] More than 250 are dead, more than 25,000 are homeless and property damage estimated at many millions has resulted from the floods which sweep Ohio today.

The heavy rainfall, the most copious known in years, sent every stream and river over its banks and hundreds of cities tonight are in darkness as the result of electric lighting plants being inundated.

Dayton, Delaware, Findlay, Hamilton and Middletown have appealed to the state for aid and companies of National Guardsmen are being rushed to the cities to aid in preserving order and in rescuing the inhabitants from death in the flood.

LEVEES SWEEP AWAY.

The worst flood conditions are at Dayton. Early in the morning the great Miami reservoir, fifteen miles north of the city, broke and let down an immense torrent of water into the Miami River. The levees in the city were swept away and the whole city of 115,000 population was flooded. According to latest reports more than sixty are known to have been drowned and it is probable that the loss of life will be far above the 100-mark.

The wall of water rushing down the Miami poured into Middletown and in the latter city it is estimated that from twenty-five to thirty persons were drowned. In Middletown, while no deaths were reported, fifteen persons are known to be missing.

STEAMER SMASHES BRIDGE.

In Cleveland, while no lives were lost, the damage will reach \$2,000,000. The Cuyahoga River swept through the manufacturing district in the flats, closed down hundreds of mills and left more than \$1,000,000 worth of property in ruins. The East Third street bridge was destroyed when a big steamer was swept from its moorings and crashed into it. Thousands of dollars worth of lumber was swept into the river and out into the lake. Firemen were kept busy dynamiting lumber jams at bridge piers.

In Youngstown 25,000 workmen were forced to quit work when most of the big industries were shut down by the flood. All bridges in the city are guarded.

CALL FOR NAVAL RESERVES.

In Lima, several hundred families have been made homeless and naval reserves have been called from Toledo to give them aid.

The big bridge over the Miami River at Middletown was swept away, fifteen persons are missing and scores of houses are floating down stream.

FLOOD CUTS OFF WATER.

Three fires have broken out in the west side of Columbus and the flames are spreading as the firemen have no water supply. Two bridges were swept away by the flood.

NATIONAL GUARD CALLED OUT.

Three companies of the Ohio National Guard have been sent to Hamilton to help preserve order. Five persons were drowned there.

Larue, Marion county, sent an appeal for help to Gov. Cox. The town is inundated and people have sought refuge on the floating logs.

The number of known dead in Delaware is nineteen and from thirty-five to fifty are missing. It is reported that Mayor B. W. Lee is among the drowned.

ENGINE ROLLS INTO FLOOD.

In West Liberty an engine and one car rolled down an embankment into the Mad River. The conductor was drowned. Several bodies were seen floating away and it is feared a number of passengers in the two cars were drowned.

FACTORIES CLOSE DOWN.

In Akron more than 500 families are homeless as the rubber factories were forced to close down, railroad and trolley traffic is paralyzed and it is feared that the big State reservoir south of the city will break. Only one death, that of a Northern Ohio traction line man, who was electrocuted, was reported.

TRAIN CREW DROWNED.

At Whipple Hill, near Wellington, O., train No. 22, of the Wheeling and Lake Erie Railroad, went through a trestle and the engine driver, George Dyke, the fireman, Daniel Shanklin, and a brakeman, August Burrier were killed.

TRAFFIC TIED UP.

The solid trains of Pullmans and other trains, extending from Lima, O., to Lafayette, Ind., are held up by the washout at Middle Point.

Indianapolis is suffering severely and Ft. Wayne is without lights and in danger of a water famine. Farms and crops throughout Ohio and Indiana have been ruined.

COMMUNICATIONS CUT.

Telephone and telegraph communication is almost impossible in the flooded sections. Girl telephone operators at Phenon, eight miles from Dayton, are sending out some dispatches from the building in which they are surrounded by fourteen feet of water.

In some places the rain is still falling and cloudbursts have continued today.

REPORTS SIXTY DEAD.

Vice-President of Dayton Railroad Reports Situation in Ohio City is Appalling.

(BY A. P. NIGHT WIRE TO THE TIMES.) CINCINNATI, March 25.—Sixty are dead and probably more in Dayton, according to Frank Thompson, vice-president of the Dayton, Lebanon and Cincinnati Railroad, tonight. Branches established a telegraph wire late today from Dayton to Lebanon. He says that the situation is appalling, and beyond all control.

Fifteen persons are dead at Hamilton, according to a local correspondent. The light plant of the town is out of commission and the town is in darkness. Cries for help can be plainly heard for blocks in every direction.

Ohio's Queen City an Arm of the Sea.

Flooded Street, Cincinnati.

Flooded Street, Cincinnati.

Flooded Street, Cincinnati.

Views of Cincinnati.

In the upper panel is a view of the suspension bridge that links Cincinnati with Covington. The structure is in danger of collapse on account of the pressure of the flood. In the middle panel is a view of the new United States government dam at Farnbank, below Cincinnati, reported to have been destroyed. The lower three-column panel is a panoramic view of the Ohio River at Eden Park in Cincinnati.

Grain Steamer Bays.

When the stream swept down upon the grain steamer, the entire business and parts of the residence districts. Fire bells warned the people of the on-rushing water, but in many instances only fast work with the boats saved many from death.

In many of the streets the current swamped all boats that ventured out. Thousands were rendered homeless. An appeal has been made for state aid.

MILITIA AT KOKOMO.

State militia patrolling the streets of Kokomo last night and today notified residents to evacuate their homes. More than 1,500 are homeless with water and light plants inundated. The five bridges over the river have been suspended. Wildcat Creek there is a quarter of a mile wide in the heart of the city—five feet above the normal high-water mark.

The dyke at the water plant in Muncie broke last night and the city is in danger of being cut off. This left the town without fire protection. White River is steadily encroaching upon the town and more persons are being forced to evacuate their homes. Just after a train had passed over it, the Big Four bridge there collapsed and a Chesapeake and Ohio bridge also was destroyed. Two schools were damaged and all traction lines and most of the railroads there are at a standstill.

DISTRESS AT ANDERSON.

Green's Branch, at Anderson, ordinarily a little stream, is a raging torrent. Thousands have deserted their homes. Water burst through a wall into the municipal light plant and in a few seconds was nine feet deep, the employees barely escaped.

More than a hundred residences at Marion are flooded to the second floors through the breaking of the Mississippi River levee.

At Tipton a hundred families were driven from their abodes.

Noblesville reports the White River there higher than in thirty-three years, and it is said two persons were drowned. One hundred families are homeless.

The big hydraulic dam north of the town is threatened and persons living below it have been told to move.

LOSS AT SHELBYVILLE.

The Little and Big Blue rivers broke the levees at Shelbyville and the water has reached within a block of the public square. The water and light plants were damaged and the city commandeered all wagons to aid in moving out water-bound families. Two hundred feet of the Big Four bridge has been washed out. The surrounding lowlands are covered with water.

Logansport is cut off from communication by the White River. Several deaths by drowning are reported near there.

Reports from dozens of other towns are all of one import: The situation is appalling. The light plant of the town is out of commission and the town is in darkness. Cries for help can be plainly heard for blocks in every direction.

The city officials issued a call for help to assist in strengthening the levees and in moving furniture from buildings threatened.

Outside of Indianapolis, Fort Wayne, Rushville and Kokomo were the worst sufferers in the state.

At Kokomo the water in some streets was eight feet deep and rushing like a mountain torrent.

Gov. Ralston was called on for relief. Indianapolis in grip of worst flood in its history. Other towns paralyzed—No relief in sight.

City and State agencies—Seven agencies are coming to the aid of the victims.

Caught in a Rush.

(Continued from First Page.)

that claimed twenty lives, injured 250 and did property damage amounting to a million dollars today faced its worst disaster in forty-seven hours when the waters of the Wabash left their banks, flooding part of the residence section.

Many families whose homes had escaped destruction in the tornado were surrounded, and the residents were forced to flee for their lives.

The river has passed the twenty-five-foot stage and is rising at the rate of five inches an hour. Railroad traffic is practically suspended and interurban traction service has been abandoned. Residents of Taylorville, Robertsville and West Terre Haute have deserted their dwellings. Five hundred residences are under water and the coal mines near here are flooded.

Relief stations established near the flooded districts are swamped with applicants for aid.

At La Fayette the Wabash River, rising a foot an hour, has passed all previous high water marks. A huge crowd of people, many of whom are possibly more persons to death. La Fayette T. Woolery, a student at Purdue University, was drowned there while trying to rescue two men.

MILLION LIVES IN LA FAYETTE.

West La Fayette is without water supply and the town where the university is located is totally cut off from the world. The total loss at La Fayette is estimated at a million dollars. Thousands are homeless.

Richmond, on the White, is in darkness tonight. More than twenty bridges in Wayne county have been torn down and travel in and out of Richmond is at a standstill. A hundred persons were driven from their homes.

A half-million dollars damage was done by Flat Rock River at Rushville.

During the day reports of loss of life were received, but none has been verified because wire service is paralyzed. Seven are known to have been drowned, two at La Fayette, three at Newcastle and one at Frankfort, and one at Rushville.

CAUGHT STATE UNPREPARED.

The appalling swiftness with which the waters rose caught the entire state unprepared. Streams that were brooks Easter morning have become raging torrents during the last twenty-four hours. Persons who retired apparently safe at home last night, this morning were rescued from second-story windows by boats.

Conservative estimates tonight place the number driven from their homes at close to 100,000 and the property loss, it is said, will reach the \$20,000,000 mark. These figures are made up from reports received from towns and villages and do not include the probable great loss to farmers.

MORE RAIN COMING.

No hope for relief to the stricken state is held out by the government Weather Bureau. "Rain clouds are the forecast for tonight and tomorrow. Besides higher water, untold suffering to the homeless will come with the drop in temperature."

Rescue work is being carried on by volunteers, police, firemen and the state militia and every place where there is a human life is being searched open to the flood refugees.

Indianapolis is in the grip of its worst flood. Street cars stopped running at noon, at which time the water and gas plants were forced to suspend. Two electric light plants are operating, but may be compelled to close down.

Seven thousand persons were driven from their homes here by the overflow of the White River, Eagle Creek and Pleasant Run. They are being cared for by charitable institutions and in private homes.

RAGING FLOOD INUNDATES
ENTIRE STATE OF INDIANA

Hundred Thousand Homeless, Millions of Dollars Damage Wrought.

Sudden Rise in River Drives Out Bridges, Cities and Sends Inhabitants to High Places to Relieve—Indianapolis in Grip of Worst Flood in Its History—Other Towns Paralyzed—No Relief in Sight.

(BY A. P. NIGHT WIRE TO THE TIMES.)

INDIANAPOLIS, March 25.—With tens of thousands homeless, property loss of several million dollars, Indiana tonight is experiencing the worst flood in its history. The entire state practically is one huge sea and every brook, creek and river is taking its toll of damage. Public service corporations of the entire state are helpless, railroads and traction lines have canceled nearly all trains and many cities are without fire protection and without light.

Dwellers along streams devoted their labors today to rescuing those trapped in their homes and to removing furniture and merchandise to higher ground.

During the day reports of loss of life were received, but none has been verified because wire service is paralyzed. Seven are known to have been drowned, two at La Fayette, three at Newcastle and one at Frankfort, and one at Rushville.

Floods Nature Covers Havoc in Omaha With Immaculate Pall.

Homeless, Millions of Dollars Swells Relief Fund to Aid Homeless and Destitute.

City and State Make Preparations to Meet the Emergency—Seven Stations are Established and Preparations are Completed for Temporary Shelter—Death List Growing and Bodies Will Be Buried Today.

(BY A. P. NIGHT WIRE TO THE TIMES.)
OMAHA (Neb.) March 25.—Today, for the first time since the disaster of Easter Sunday, Omaha began to count both in lives and dollars. When the news came that it was apparently the worst of the disaster, the result were willing to admit that the relief fund would be swelled by millions of dollars.

Gov. Nelson was asked to call the relief fund and to call the relief fund. He said that the relief fund would be swelled by millions of dollars. He said that the relief fund would be swelled by millions of dollars.

The Heart of Dayton Under Ten Feet of Water.

Caught in a deluge. The picture shows the new and the old (Greek building) Courthouse and adjoining structures in the city of Dayton, O. In this part of the town the water is reported to be from ten to thirteen feet deep. The photo was sent The Times by J. R. Sides of No. 738 East Fourteenth street, Los Angeles, a former resident of Dayton.

Middle West a Lake.

(Continued from First Page.)

Dayton is under martial law. The giant wave swept past Dayton licking up the small cities and towns on the banks of the Miami as though they were matchwood, on to Hamilton, where the same scenes were enacted as at Dayton except on a smaller scale, for the people of Hamilton had received some warning of the approach of the flood and many of them had sought refuge on higher ground. It is doubtful if there would have been as great loss of life at Hamilton had the flood wave not been reinforced by the smashing of a dam to the north of the town, which so augmented it that it swept over sections of the city which were deemed safe.

The citizens of the stricken districts, dazed in the point of stupor at first by the awful calamity which had overtaken them, have already begun the work of rescue and relief. Until the waters have gone down, it will be impossible to determine the number of dead. Indeed, it is doubtful if the full story ever will be known for there is reason to fear that scores of bodies have been swept by the flood into the Ohio and may be carried hundreds of miles even down the Mississippi.

The four days of steady rain filled every reservoir in the State to overflowing. A big power plant reservoir just north of Dayton broke this morning and poured its thousands of tons of water into the Miami Valley. A wall of water seven feet high swept down upon Dayton, carrying all light structures before it. The water continued to pour into the city and hundreds of people were forced to flee from their homes. They had little warning and hundreds of them were caught in the flood and drowned.

The water continued to rise until tonight there was ten feet of water over the downtown section of the city. Reports from a telephone operator in the exchange in Dayton showed a wire to the city which was broken by the flood. A man who was in the city at the time of the flood reported that he saw hundreds of bodies floating through the street past the telephone building. Later, a report from Richmond, Ind., was received that 8000 were dead in Dayton and then word was received from the Mayor of Dayton, who had escaped the disaster, that he had seen the dead in his city will number fully 1600.

TRAPPED IN THEIR HOMES. In the swollen river burst the levees and swept through the town. People were trapped in their homes and finally the houses were swept away in the swift current and it is estimated that 510 persons were drowned.

DAMAGE IN CHICAGO. Wire men of the fire department worked feverishly to restore the electric alarm system, which was seriously impaired by the storm yesterday. It is estimated that damage done in Cook county (Chicago), including dwellings demolished, the miles of wires and poles prostrated, windows smashed, basements flooded, railroad property and machinery injured, will total \$1,666,000. The greatest loss falls on the telephone and telephone companies.

REPORT THOUSAND DEAD AT HAMILTON. (BY A. P. NIGHT WIRE TO THE TIMES.) CINCINNATI (O.) March 25.—A message from Phoneton said that a

cities, towns and villages alone. This does not include the losses to farmers. The loss of life, while not so great as in Ohio, has not been estimated.

The climax of the flood in Ohio was reached at Dayton, where tonight it was reported that the water was from twenty to forty feet deep in many streets; that bodies were floating past windows of office buildings and that the catastrophe assumed the proportions of a tidal wave. A telephone message to Chillicothe asserted that 10,000 of Dayton's inhabitants had been dispatched from Xenia.

Hundreds of fires which could not be extinguished were said to have added to the horror of the situation at Dayton.

At Delaware nineteen persons were reported dead, many missing and 400 families homeless.

Sixteen or seventeen are dead at Hamilton, O., where conditions similar to those at Dayton render rescue work impossible. Otto, a hamlet of 160 persons, was said to have been destroyed.

Hundreds of lives have been lost in Indiana. Railroads early in the night cancelled all train service. Reports brought word of the sudden overwhelming of whole towns, but wire service was so meager that the extent of the fatalities could not be learned.

Millions of dollars in property damage has already been incurred and the flood is still on the increase.

From Indianapolis came reports of 100,000 homeless throughout Indiana and a property loss reaching the enormous figure of \$10,000,000 in

Our Helpful VICTROLA Service—

We make it a point to examine every Victor, every Victrola and every machine of whatever make before it goes into your home. But the one thing we do and which we only do is to follow that machine after it is in your home, keep it properly oiled and regulated at no cost to you. By this method you get the most out of your machine. This is a most important thing to you and to ourselves—it is one of the many things that have caused the growth of our talking machine business to its present great proportions.

This Victrola... \$75

In Your Home there should be a VICTOR, EDISON or a COLUMBIA—WE HAVE THEM ALL

Every style, every size, at every price—from \$10, \$15, \$17.50 up—on terms that any family can afford to pay.

Hear the Victor Records by CLARA BUTT.

HOUSES HURTLE THROUGH AIR

WRECKAGE IN SHREWSBURY

Incidents are reported on Tuesday, March 26, at Shrewsbury, Mass., where a house hurtled through the air and crashed into the ground.

A. P. NIGHT WIRE TO THE TIMES

Another big fire is reported to have burned a downtown block. The breaking of the Earle's restaurant, which supplies the drinking water, left the city without water, and the fire department declared that there was great danger of typhoid in the use of the water.

There are no boats in Dayton which are being towed, and those on the river are being towed by the city. The fire department is working to reach the business section, and many houses have been swept away and how many occupants were killed is not known.

DEAD DOG IN TREE

People have told me stories of a dead dog in a tree. I have taken a grain of salt. But after this morning I will believe anything anybody tells me about a dead dog in a tree.

STRANGE HERMIT IS CAPTURED BY OFFICERS.

(Continued from First Page.)

BACK on the rugged crags of the Malibu range, some miles from the picturesque little mountain town of Calabasas, Deputy Sheriff's

and Sepulveda yesterday prosecuted

a thrilling chase of Warren D. Udell,

a man of patriarchal appearance,

who has been terrorizing the district.

Heavily armed, the deputy sheriffs

located Udell four miles from the

nearest trail and two miles from his

cabin, and on complaint of Deputy

Tax Assessor George A. Finnlin, at

the point of pistols, shackled him and

brought him to Los Angeles. He is

lodged in the County Jail.

Udell will be examined by alienists.

The authorities say he escaped from

Patton three years ago after serving

two years in that institution on a

charge of insanity. Of his family or

friends, little is known.

According to the story related by

attaches of the District Attorney's

office, Udell, after vanishing from

Patton, located in the mountains near

Calabasas a little monastery all his

own, but on property to which the

authorities say he has no claim.

Squatting in the hills, Udell builded

himself a rugged little cabin, and by

his rifle and an ax, he lived the life

of a hermit. He lived the life of a

hermit. He lived the life of a hermit.

He lived the life of a hermit. He

(Continued from First Page.)

Start Them Off Right with a Good Laxative and Then Watch Their Diet.

Mothers are often unconsciously

very careless about the diet of their

children, forcing all to eat the same

foods. The fact is that all foods do

not agree alike with different per-

sons. Hence, avoid what seems to

constipate the child or to give it in-

digestion, and urge it to take more of

what is quickly digested.

If the child shows a tendency to

constipation it should immediately be

given a mild lax

CHECH EXPECTED TO PITCH OPENING GAME.

Slagle or Perritt, However, May Draw the Assignment—Tentative Line-ups for First Clash Between Tigers and Angels—Season Opens Tuesday—Hughie Smith May Play First Base for Fresno.

BY HARRY A. WILLIAMS.

THE turmoil is less than a week away. Or, to be more specific, the Coast League season will open next Tuesday, and neither of the local managers is dead sure of his line-up for the curtain-raising event.

Both Dillon and Hogan have been inspecting a large array of talent for the past month, and it will be no small task for them to select the nine men who will give each club the highest possible degree of effectiveness.

However, there is no harm in guessing. And if a man were a mind reader, and could penetrate the dark and deep things being thought by Dillon and Hogan, he might read the future, as follows, to wit:

LOS ANGELES **VENICE**

First	second base	Carlisle	left field
Smith	left field	Kane	center field
Moore	third base	Patterson	first base
Maggert	center field	Branch	second base
Howard	right field	Bayless	third base
Gill	first base	Litch	shortstop
Johnson	shortstop	Hop-Hallman	catcher
Steele-Brooks	catcher	Elliott-Tenneman	pitcher
Chish	pitcher	Hilt	pitcher
Slagle	pitcher	Stewart	pitcher
Perritt	pitcher	Baum	pitcher

This mind you, is not mind-reading. It's only what you might read if you were a mind reader. To be candid, it is only a guess. Hogan and Dillon couldn't tell you anything more definite than that. Some of those mentioned may strain a tendon, spring a "charley horse" or break a leg or two in the next six days. But if nothing like that happens, the opening day line-ups will be found to correspond very closely to those herewith presented.

Of course, in the case of the batteries, it will be largely guess-work until the men actually take the field. The pitchers named are merely those from whom the heavier for the opening seems most likely to be selected. But other candidates for that honor may develop in the next few days.

Chech seems to be the logical man to open for Los Angeles. Not only is he a good spring worker by nature, but he has shown himself to be in good form, and appears to be about the most dependable man on Dillon's staff at the present time.

However, there is a possibility that Slagle may draw the opening assignment, as he was something of a "jinx" to the Tigers last season. Perritt is in good form, and has been responsible for some shrewd slugging in the spring games.

It is more than likely that Bates will be behind the bat in the opening game. But should injury or illness prevent, the Angels will be splendidly fortified with Brooks on the job.

For the Tigers, Stewart and Harshaw have shown to the best advantage in the two games which Venice has played against the White Sox. Hilt, however, is always an ace, while Baum, whose training was interrupted by an accident, should be in form by Tuesday.

Anyways, it's sure to be some ball game.

Hughie Smith may Moscow out as a first baseman with the new Fresno club. The possibility of this was yesterday admitted by Berry and Dillon. Hughie can have the place if it develops that he has recovered sufficiently from his illness of last season to return to the diamond.

Smith still is the property of the Los Angeles club. It had been originally programmed to play him at first base this year, but his illness made this uncertain, and Gill was purchased from Minneapolis. This left Hughie out in the cold, so to speak.

George Wheeler, who has been made manager of the Fresno club, will today emerge from retirement and talk the situation over with Berry and Dillon. Tonight he will leave for Fresno and begin assembling his talent.

Bender, an outfielder, who has been trying out with the Angels, seems sure of a Fresno berth. Not only is he some ball player, but Bender is a name with which one may safely confide.

With the Venice Tigers slated to pay homage to "Poy" Ascan at the Empress last night, and the Venice Chamber of Commerce giving a banquet to their honor, they had an embarrassment of engagements. Hogan solved the problem by dividing the squad. Half the team heard Ascan, and the other half gathered about the formal board, but they were not designated as the Regulars and Yarnigans. These terms don't go in polite society.

"Poy" Dillon came back yesterday and led the Angel Yarnigans to a 6-0 victory over the Regulars at Washington Park. Hard hitting by Driscoll and a stellar catch by Wotell featured the game.

Brie Johnson officially reported to the Angels yesterday. He did not get into uniform in time for the practice game, but had his first taste of soccer. Trainer Finley lining the men up for a brush with the players after the regular workout.

Jim Scott of the White Sox has pitched many a tough game, but his hardest battle was not in the major league.

It was in the Imperial Valley League three years ago. Scott was in the box for Imperial, and Wiggs for Holtville. The game went four innings and ended in a 1-0 draw. Capron made a home run for Imperial, and then "Blind" Bates duplicated the achievement for Holtville. Those were the only tallies registered.

The Tigers yesterday received their new uniforms, and they sure are some glad rags.

The home uniforms are white with small perpendicular black stripes, with a var-colored tiger head on the breast, and hosey that is a dream in black and white. On the road the club will be bedecked in navy blue suits with a small white stripe.

Instead of sweaters, the players will wear dark red maskinaw suits.

They will don their swaddling clothes, meaning home uniforms, at Venice this afternoon.

WHITE SOX AND TIGERS OPEN NEW VENICE GROUNDS TODAY.

THE Venice baseball grounds of the Coast League will be dedicated today with a game between the Tigers and the Chicago White Sox. The contest, which will start at 2:30, will mark the formal opening of the palatial new home provided for the Tigers by President Malar.

There will be an automobile parade in Los Angeles, starting at 11:30. It will form at the City Hall, going south on Broadway to Main, thence to Washington and out Washington to Venice.

Mayor Holtbrook is slated to pitch the first ball, and the Stars and Stripes will be unfurled by President Malar to the accompaniment of band music.

He Walsh will open the game for Chicago. Baum, Hilt and Harshaw will work for Venice.

Ducking a right swing.

Getting out of the way of the fast ones is one of the best things Frankie Burns does. In this particular instance Young Shugrue is the lad who has just failed to land a haymaker on the elusive Frankie.

Cass Words Taboo.

BOXES TO AID CHURCH, BECOMES MITT ARTIST.

BY AL WADDELL.

NO "CASS" words will be un-erected in the vicinity of Frankie Burns' corner of the ring at Venice next Saturday during his bout with Eddie Campi. Frankie is superstitious and firmly believes that profanity is a sure sign of impending misfortune.

During his fight with Johnny Coulton, some ringster feverishly entreated and yelled: "Pretty work, Frankie, knock his damn black off!"

When Burns came back to his corner at the end of the round he leaned over the ropes and said in a reproachful tone of voice: "You should not get excited and talk like that; control yourself. Swearing always brings bad luck, so please keep your 'cass' talk to yourself."

Not only does the Jersey City talk to the ban on explosive language, but he has never tasted booze even in its mildest form; and can boast of never having inhaled the fumes of a cigar.

To look at this rugged little fellow, who made monkeys out of three sparring partners during his work-out at Venice yesterday, one would hardly believe that ill-health forced him into the prize ring.

Frankie was punning a pen over a ledger in a Jersey City office, when the family physician told him he would have to get outside work done to take the big contest.

The lad quit, and began a search for an outside job. This particular brand of wage earning was scarce, and the best he could get was a berth

Manual Arts Firm.

HIGH SCHOOL BOYS WILL TOE MARK IN MARATHON.

BY OWEN R. BIRD.

THE first High School athlete to enter the Times Modified Marathon is Blich Hanger of Manual Arts. This young man entered the L.A.A.C. road race February 22 and made a good showing, although he was practically without experience at that time.

Manual Arts High School has become a decided power in inter-school athletic ranks this season, and has been working up to a very enviable place among the Southern High schools, and after winning second place in the city championship meet, all were willing to credit the Vermont mechanics with class.

The fact that Manual is represented in all lines of sport speaks well for the school and when a representative is sent into the Times race, it shows that some of the branches are to be overlooked this season.

It is to be hoped that Coach Webster of the Hollywood High School will find at least two men who can run through this course. He is looking for his long-distance men at the present time, and says that he hopes to find some for the race, as Hollywood is not to be outdone by Manual Arts, the two schools have been very keen rivals.

TRAJANS VERY STRONG.

There is another very lively contender in the race, if past performances can be taken as any criterion, and that is Walbridge, of the University of Southern California. Walbridge got his start as a long-distance cross-country runner in and around San Francisco, where he had made some good records in the "Dipsea," and other modified marathons.

On coming to Southern California he proved severe of the road races and last year ran well up for a place in the Times Marathon.

This year he attended the Law School and was grabbed by Comstock of U.C. for the two mile. To the surprise of all, he has made good in the shorter race against the Stanford and California "rednecks," and there is but little more to be asked of any athlete.

With his training under the "variety" coach and the natural speed acquired from working with the shorter race, he should make a wonderful showing over the ten miles of the Times race.

HENDERSON LOOKS GOOD.

For running makes Walbridge is to have Paul Henderson, a gritty little runner who is training daily for this race, and who should make a good score for the university. Uncle Lewis is taking care of the lad, and that is a big item in his favor, as Uncle knows the dope.

Benefield, also of U.C., will probably be another member of the U.C. squad. Benefield came out this sea-

RING NOW HAS MAJOR LEAGUE.

Los Angeles, Fresno and New Orleans in Circuit.

McCary, Coffroth and Tortorich Rule the Roost.

Burns Has Experience Campi Lacks.

BY HARRY A. WILLIAMS.

Los Angeles, San Francisco and New Orleans comprise the major league of boxing. They are to the sport of the ring what New York, Chicago and Boston are to baseball.

While boxing occupies a wider scope than ever before, and many States heretofore closed to it are passing favorable legislation, it is to one of those three cities that the country must turn when a bona fide champion contest is to be staged.

That is the situation as cited up by the astute and talkative Tommy Walsh, right-hand man of Promoter Tortorich.

"McCary, Tortorich and Coffroth are the 'Big Three' of boxing," said Walsh between rounds during Frankie Burns' work-out at Venice yesterday.

"And of the three, McCary is the Kingpin," ventured a Los Angeles booster. "He took hold of the game here when the place was practically a public, and made it the boxing center of the world."

"I'm not talking about the relative service which Tortorich, McCary and Coffroth have rendered the game," replied Walsh. "But an amply pointed out that they are in a position to perpetuate the sport on its present clean basis."

"Boxers make big money only when they are boxing for, or defending, a championship. They may tackle the footlights for a time, and dabble around in the short-cut belt, but eventually the public demands that they engage in a contest that will prove decisive and remove all lingering doubts. It is then that they must turn to New Orleans, Los Angeles or San Francisco. We are now ready to stage twenty-round bouts in New Orleans, which makes as a member of the big league."

The championship situation is wholly in the hands of these three men, giving the West and the South absolute precedence in boxing.

Hadn't thought of it in just that light, but Walsh seems to have it straight up about as it is.

Rah! Rah! for the big league.

There are some points of resemblance between Eddie Campi and Frankie Burns, and many of differences.

Campi has every physical advantage over Burns, but Burns has a wider experience in ring warfare. Burns is credited with a harder weapon, and should be a better ring general, thanks to his superior experience.

Campi has never been peddled to any extent, while Burns, who has gone out of his class, time and again, knows what it means to be thrashed and come back for more.

Burns started boxing at a church while Campi first donned the gloves in his dad's back yard. Burns' first bout was in St. Mary's church, under the auspices of the Holy Name Society. It was a benefit.

For his first professional bout Burns received \$16. Campi drew down just \$1 on his first appearance, and he gave half of this to his seconds.

Burns occupies a peculiar position in the boxing world. He has met four champions and one near-champion. Some of these he is credited with beating, but he has not yet been defeated with a title. This is due to the fact that most of his contests were of the no-decision, and therefore non-utricular variety.

He boxed Johnny Coulton three times, and a no-decision battle. The third was a twenty-round affair. A kind-hearted referee threw a life preserver to Johnny, and then moved himself by making a hurried exit. At least, that's what they say down in New Orleans.

Burns went out of his class and shaded a little. He was in turn shaded by Johnny Kilbane, who boxed him at catchweights. Digger Stanley, while heavyweight champion of the British Isles, was beaten by Burns, and he later defeated Jim Kendrick, who claimed the same distinction.

Campi's backers are asking for 10 to 1 on Burns' record and experience is responsible for this. It is not justified by the work of the boys in their training camps. Campi is in better shape mentally. If not physically, than when he boxed Williams. Having weathered the twenty-round route, he has greater confidence and is free from worry.

Paul Muller sends the following cheering "cass" down from Robert's Sporting Goods Dept.:

"Just a line to let you know that I have 'K.O.' Brown up here, and that he will be in better shape when he meets Anderson than at any time since coming to the Coast. There will be a 'K.O.' by opposite Anderson's name when Brown gets through with him this time."

DICK FERRIS TROPHY FOR OWENSMOUTH ROAD RACE.

DICK FERRIS, donor of the \$1000 Santa Monica road race trophy, last night offered the cup to the winner of the Owensmouth road race on Saturday. This silver loving-cup, according to the deed of gift, will revert to Dick Ferris on May 1 of this year, the anniversary of the last Santa Monica road race.

The trophy is now held by Attorney E. E. Hewlett, owner of the Fiat which Teddy Tetraff drove to victory in the last Santa Monica race. Attorney Hewlett will waive his right to hold this cup for another month in the event that his Fiat fails to win the big race at Owensmouth.

With thirteen cars in the big contest the prize will be well worth striving for. The cup, added to the generous purse, makes this one of the biggest races ever pulled off.

"There is no desire on my part to keep the trophy," said Dick Ferris last night. "I would much prefer to donate the cup to the winner of the Owensmouth road race."

POPULATION: By the Federal Census (1910)—216,300
By the City Census (1922)—222,000

reason for the difference appears to be something of a mystery.

PLEAD IN VAIN FOR MORE TIME.

MUST GO TO TRIAL IN LESS THAN MONTH.

Alleged Member of Swindling Gang to Face Jury Soon in Spite of Vigorous Efforts of His Counsel and Himself to Defer It—Horton Would Impose Compelling Man.

In spite of strong objections by the jury, alleged member of a notorious gang of swindlers, and G. Ray Horton, his counsel, Judge McCormick set trial in Department Twelve for April 17. The court declared that the heavy ball of \$15,000 and the circumstances surrounding the preliminary examination indicated that trial within a reasonable time would best subserve the ends of justice.

Due to the plea of not guilty by Horton, Deputy Dist. Atty. Shannon and Attorney Horton argued over a motion to dismiss and a demurrer. The court held the information was correct and that no technical errors warranted dismissal. As regards the demurrer, Judge McCormick said that he was inclined to the old common law rule regarding the certainty with which written instruments should be described but that California Supreme Court decisions cited by the prosecuting attorney made him reluctant that the complaint did not need revision.

Some of the court attaches testified that the defense is anxious to postpone the case until the out-of-town witnesses get tired out and leave for home. Deputy Dist. Atty. Shannon said he would have at least five witnesses from the East.

Horton was handsomely dressed in a dark suit of tan, but looked worried and coughed considerably. He is just recovering from illness. His lawyer expects to ask the court to set bail from \$15,000 to \$5000. In the Justice Court it was maintained that heavy bail was necessary to keep the defendant here. He has been in the County Jail for several weeks.

"We have reasons for not wishing a speedy trial," said Attorney Horton. "We intend to impeach the complaining witness for one thing. To get some men here from Illinois to testify. It may be necessary to go to their deposition."

G. P. Frost is the complaining witness against Horton. He alleges that on February 18 he was induced to sign a check for \$15,000 drawn on an Illinois bank, and also two small drafts. Horton induced him to sign the paper to put up on an alleged fake horse race at Arcadia. Horton was brought in the Superior Court yesterday by John Scott, who is alleged to be the owner of the horse race. Judgment is asked in that amount.

Justices King and Boden are waiting for new evidence against Dr. L. O. Wilcoxon, whose preliminary examination will be held in Justice Court tomorrow. While the officers are not disclosing their information, both declare that it will be sufficient to hold the defendant to answer from the strongest evidence they had yesterday, will be reserved for the trial.

WHAT'S WRONG IN TEXAS?
State Star State Officers Decline to Meet Man Whose Blind Daughter Is in Need Here.

Justice Reeve is using every effort to secure the return of Carl E. Van Ness to this jurisdiction in order that his blind daughter, Jean, be provided for. However, the laws of Texas, where Van Ness is living, prohibit him from much more than in this state.

Deputy Constable Thomas went to Houston armed with a requisition for Van Ness, but upon his return yesterday the officer stated that Texas authorities would not hold Van Ness.

It is alleged by the District Attorney that Van Ness left his wife last night and that she has been in great trouble to make a living for her blind daughter. She says physicians have told her that an operation will restore the girl's sight. The father has a position in Houston paying him \$150 a month, according to the authorities. He has ignored letters asking for aid, they declare.

FOOTED REVENGE.
Carter, Fred, Charged with Stealing a Fine Horse to Get Even—Arrested Officers Say He Confesses.

A story of revenge that may furnish another scenario for the "Horse" was told yesterday by Deputy Sheriff Sepulveda and Van Vleet after they arrested Henry Brocamp, a horse and ranch hand, in Riverside county.

Brocamp is charged with stealing a valuable horse from the Premier ranch near Arroyo, out of revenge. The officer says he admitted returning to the ranch after he had been arrested, to get one of the best horses in the range. He told it for him, it is said. The officers also say Brocamp stole another valuable horse from the same place.

The prisoner made a written confession yesterday, declare the officers. He probably be taken to Riverside county, as the alleged crimes were committed in that county.

WANTED BOLD BANDIT.
Who He Chased—Would-be Robber of a Bank—Men Held Up at Point of Home.

A step in the face saved J. G. Marx from being robbed as he was about to enter his home, No. 1616 South Flower street, Monday night. A voice from the bushes commanded him to hold up his hands. Marx turned and found himself being held up by a man and a woman. With the movement of the man, Marx swung his revolver and shot the man in the back. The man ran, pursued by Marx, and stopped the man in the face. The man, No. 118 Irolo street, was taken to the hospital.

Marx was chased by a highwayman. The man, who was a robber, was chased by Marx. Marx was chased by the man, who was a robber. Marx was chased by the man, who was a robber.

FOR WOMEN AND MEN. Facts, Features and Fancies

BY OLIVE GRAY.

DAILY BEAUTY HINT: These busy days, when one must plan to live on twenty-four hours a day, it is a constant to know of a complexion cream which acts in several capacities. Such a one was recently called to my attention. Easily applied, this cream both smooths and whitens the skin and at the same time nourishes the tissues. It is declared that it will not promote the growth of down upon the face or neck.

I wrote of a photograph of Napoleon, depicting the "Great Corsair" as he is not usually shown. The statement elicited much interest and inquiry. I have since learned that it also aroused amazement.

I received a number of letters asking me to the whereabouts of the album and the antique shop where the same was discovered was besieged with makers after information.

But the best informed held them as a high encyclopedia to assure themselves that photography was not in vogue during the time of Napoleon.

It was decided by the most prominent of the photographers to obtain from paintings in some of the galleries of Europe. The examples were of the very earliest photographs and the characters were in a most active, of course. The same was of interest in many ways, and indeed being an object of curiosity.

They are actually as large as the head and neck, in fact, very much as the head and neck of a man. The same have lace shoulder drapes which are grandly used to wear. The same of the new style. You can see the lace and the lace is entirely in color. Chic, they are perfect in the new style. The same are in fact used to which we have become accustomed, that we have to see them a while before we really accept them as a matter of course.

Clara, the wife of seventy-five years, was gay with pink flowers and black-shaded candelabra.

Mr. J. C. Cline, No. 255 South Broadway street, was a delightful host yesterday and her guest of honor was Mrs. Leland Gilchrist, who was the bride of the day. SUN SMILES ON MISS MARY FOY.

NEW YORK NEWSPAPER THINKS SHE'S JUST IT.

"Ideal Type of Woman Politician" Says Her Interviewer, Whose Stock Questions Stick in His Throat When He Wants to Know About Votes for Women in California.

The New York Sun of March 19 has the following to say of Miss Mary Foy of this city, who is now lecturing on woman's suffrage and kindred topics in the East:

"White-haired and rosy-cheeked, with eyes that twinkle and fine lines around her eyes from constant smiling all her life, Miss Foy, tall, commanding presence, suggests an ideal type of woman politician. She has the strong, fine face of a thinker, the ready gift of expression and a charming absorption in her subject, which makes her forget everything else and talk very earnestly, running her fingers through her soft, gray-white pompadour with a delightful abstraction. She has lived in Los Angeles all her life, fought in the front ranks for woman's suffrage, and since her enfranchisement has taken the lead as one of the unofficial national representatives of the State. Miss Foy is so absorbed in national politics and she takes enfranchisement so entirely for granted that the old stock questions about whether the suffrage is a success or not falter and stick in one's throat, to come out in an amended form as to what has pleased her most about women in politics. Miss Foy does not hesitate, for that reason, and more than that, when it comes to local issues, to questions of State legislation which especially affect women and children, all other political differences are nothing beside our ability to stand together as a body behind the measure we want to put through."

"It is our solidarity as women," she replied. "From the beginning we have learned that whatever the issue is, we are always women, and have a tremendous common interest for that reason. And more than that, when it comes to local issues, to questions of State legislation which especially affect women and children, all other political differences are nothing beside our ability to stand together as a body behind the measure we want to put through."

The narrow collar ruche has been revived. Short evening wraps are very fashionable. Navy blue holds its own with the newer shades of blue. The Minnesota sleeve seems to be with us to stay. There is a great vogue for crepe de chine lingerie. There is a tendency to the long waist lines this season.

personally, I can testify that this is not so. "Another thing which has pleased me is the woman's ability to draw lines and not mix issues. They already recognize the difference between Federal, State, municipal and party issues, recognize just which points they have in common with others and where they must discriminate. They are also inclined to be very conservative in spite of the newness of their power. The women of the two big cities, San Francisco and Los Angeles, stand as two very conservative forces, inclined to investigate and weigh carefully before acting. They do less agitating and more investigating than they used to do."

CONSCIENCE AS A BASIS.
Rev. Dr. Carter, Secretary of Great Peace Movement, Addresses Advertising Club on Business.

"Conscience makes character, character makes confidence, confidence makes credit, credit makes business and business makes the world." This was the address in a nutshell made to the members of the Advertising Club of Los Angeles at the luncheon of yesterday afternoon by Rev. Dr. William Carter of New York, general secretary of the International Peace Forum. Speaking only a few minutes the brilliant orator crowded his brief effort with convincing arguments in favor of business ethics.

"Conscience makes character, character makes confidence, confidence makes credit, credit makes business and business makes the world." This was the address in a nutshell made to the members of the Advertising Club of Los Angeles at the luncheon of yesterday afternoon by Rev. Dr. William Carter of New York, general secretary of the International Peace Forum. Speaking only a few minutes the brilliant orator crowded his brief effort with convincing arguments in favor of business ethics.

Dr. Carter was received with great enthusiasm. When he had concluded Chairman George L. Ralston introduced Fred P. Ralston, who spoke on the Christian Endeavor Convention of North America, which will be held in Los Angeles, July 1-14. Ralston said that he had been elected president of the convention and that he would be glad to have the city of Los Angeles be the site of the convention.

The NATURE FORM

Have your own accurate figure to see whether you are in good health. The Nature Form is a simple, scientific, and accurate method of determining your body weight and composition. It is a simple, scientific, and accurate method of determining your body weight and composition. It is a simple, scientific, and accurate method of determining your body weight and composition.

Nature Form Company

Bullock's

An Indestructo "Landslide"

Hundreds and hundreds of travelers are turning to Indestructo Trunks. It is not surprising. The quality in these Trunks is to be seen so plainly. As much difference between Indestructo Trunks and ordinary trunks as between a dry goods case of rough wood and a steel bound cedar chest. If you want safety—you want Indestructo Trunks. There are insurance and registry features that are as important almost as the Indestructo structure feature. There is a price feature to every Indestructo Trunk that makes for economy. There are styles in Indestructo Trunks for every need—wardrobe, regular trunks and steamer trunks for men and for women—in different Indestructo models. If you need a trunk—the Indestructo Trunk. Exclusively at Bullock's—today.

Stationery

Two special offerings—Inauguration Month values—40 sheets of splendid blank finish writing paper—a full pound package—10c. You-looker fountain pen 1c. The cap of the pen fits snugly around the point, protecting it and at the same time preventing the ink coming into the cap or "leaking." No smearing of the fingers when the cap is removed. Hand-tempered barrels and 14-karat gold points—yet they are to be sold in Bullock's Stationery Section at a dollar. (Main Floor)

Toilet Goods

For the economical buyers—Perfume of Hydrogen 17c for a pound bottle. Colifield Vanity Cases 25c—For the land bag—contain splendid large mirror and small mirror. Travelers' Roll-ups 60c—Handy carry for toilet accessories; made of pretty, hand-tempered metal, and rubber lined. Wash Cloths 5c for 25c—The handkerchiefs were lined with extra fine damask. Transparent Glycerine Soap—Three big cakes for 25c.

Have Cawston Ostrich Feathers on your Spring Hat

Fashion has decreed them—women are wearing them. The Cawston down-town store is showing the latest style plumes in all the new Spring shades. It is the most impressive showing of ostrich plumes ever made in Los Angeles.

And Cawston values are not to be approached. Every Cawston plume is sold under a written guarantee of superior quality, and represents the achievement of 26 years ostrich culture in California.

If you have old ostrich feathers, bring them to us, and we will make them over to look like new.

Cooking as a Fine Art.

FOR WOMEN HOMEKEEPERS.

FASCINATING TALK ON PASTRY-MAKING ART.

Open House and Free Demonstration Three Days in the Week, on Mondays, Wednesdays and Fridays, in Afternoon, Second Floor New "Times" Building.

"Will you kindly tell me what makes a cake fall?" asked a serious-faced housewife Monday afternoon as the audience was breathlessly watching Mrs. Haffner-Ginger put that angel cake together.

"It may be any one of several things," replied the cook lady as she deftly dipped out with the shell the yolk of an egg that had accidentally fallen in with the whites. "Baking powder perhaps might be the reason—spending itself before the cake is done. You notice in most recipes you are instructed to add the baking powder the very last thing—with the flour. Do you know why? Well, I can tell you: because most baking powders act too quickly and the leavening is done before the cake is baked—and down she goes. That is the reason the phosphate baking powders have come to the front so. Any mixture of phosphate acts more slowly; it doesn't begin to leaven the dough till it comes in contact with heat, while other baking powders begin to act as soon as they come in contact with the wetting—that's the reason the recipes on many baking powder cans tell you to add the baking powder the last thing. I like the

mixed powders best."

Cakes in Your Cakes.

"Are you ever bothered with cakes in your cake—great holes?" asked the cook lady as she began slicing up marachino cherries after her angel cakes were in the pans ready for the oven. "That's caused by too many air bubbles getting in one part of the dough, and the way to prevent it is to do like this," and the cook lady took her pastry knife and cut the dough through and through, putting in the cherries and the chopped walnut and pecan meats as she did so. "What is that you are slicing up?" asked the inquisitive young woman. "This!" said the cook lady, holding up a transparent green stalk. "This is angelique, grown principally in France and put up by the French; it grows in hollow stalks about as big as a pin and it has a piny, spicy flavor," and she proceeded to slice bits into the cake dough.

Est Angel Cakes Today.

"I shall save these angel cakes until Wednesday," remarked the cook lady, as she removed one from the oven and turned it upside down to hang till it was cold, "and we will test them by eating at the Wednesday demonstration."

A box of "home grown" eggs was handed to Mrs. Haffner-Ginger by a woman in the audience Monday afternoon as a little Easter greeting and a beautiful blooming hyacinth adorned the cook lady's table—the gift of another admirer.

Best Sugar Is Best.

Mrs. Haffner-Ginger, as is well known by her friends, prefers best sugar to any other. In discussing on this topic, which came up Monday afternoon in connection with the cake making, she declared that no one, not even the finest chemist in the world, can tell by tasting or un-

der a microscope, the difference between best and cane sugar. She related her experience in Denver where she first made the acquaintance of best sugar after Colorado housewives had warned her against it and declared they could not use it. She put it through the most severe tests there and demonstrated its genuine goodness and ever since she has been talking best sugar from Colorado to California and from Seattle to San Diego.

"You can get a pound more of best sugar for a dollar than of cane," she added as a clincher, "and a pound is a powerful sight of sugar when you are out. There are no two states in the Union where best sugar means as much as in Colorado and California and there is no reason on earth why the inhabitants of these states should not use their own product."

Making Rainbow Pudding.

A circle of highly absorbed cooks

clustered about the cook lady's platform in the school kitchen, each and every one intent on the demonstration of the mysteries of that delectable dish known as "rainbow pudding" was the spectacle that greeted the eyes of The Times reporter as she casually dropped into the private show late yesterday afternoon. Luckily, she was just in time for the most interesting part—the proof of that pudding in the eating thereof.

But just here she is compelled to report an act of perfidy that must grieve every woman who was in the public auditorium Monday afternoon and witnessed the making of those two angel cakes. You will remember that the cook lady said cheerfully that we would eat them this afternoon.

From time immemorial the abominable rule in the editorial department of The Times has been "Tell the truth though the heavens fall" and so it becomes the painful duty of this re-

porter of facts to observe that the victims to the appetites of those present special students in the school kitchen, were the two angel cakes. An attempt was made to bribe this trusty and honest reporter to silence by paying her some of the booty (and that cake sure was booty) but her high sense of duty closed. One of those cakes is now being eaten by the reporter, and she agreed to make another one for the demonstration, so there will be no more of those cakes, but the exact one we saw hanging from that patent Haffner-Ginger pan on Monday.

Mrs. Haffner-Ginger's class in the Times Building are from 12 to 13 noon. For information, free lectures at the school kitchen, Mrs. Bertha Haffner-Ginger, Main 1394, or Main 10991.

FEDERAL GRAND JURY INDICTS.
The Federal grand jury returned indictments yesterday against Charles Bargas and George Kharanopolos, Greeks, charged with smuggling fifty cans of opium from Mexico. They were caught crossing the line at Tia Juana with the opium. An indictment was returned against Edwin Burnley, charged with sending an obscene letter through the mails. He will be given an opportunity to plead guilty today. Burnley is 16 years of age; six of them he has spent in prison—four years at Whittier and two at Folsom. He will make no defense to the last charge.

COSTS CHILD BOTH LEGS TO BE A GOOD BOY.

FOUR-YEAR-OLD Louis Zeckel lost both legs trying to be a good boy yesterday. Struck by Central-avenue car No. 123 at Fifty-second and Main streets, the child's tiny limbs were mangled and amputation proved necessary on his arrival at the Angell Hospital. Little Louis, who is the son of C. H. Zeckel, a carpenter of No. 257 East Fifth street, promised his father's week ago that he would not cross the car tracks.

In playing with a half-dozen other mites of humanity the frolic led across the tracks. Not until Little Louis was half way over did he recall his father's advice and remember his promise.

"Daddy said I mustn't cross the street," he cried to a playfellow, "I'm going back."

On their merry way west his chums, taunting him.

Louis, mere of a man than his age permits him to realize, had stopped still in the center of the street. A car was approaching, going south. Louis permitted it to flash by and then started home to tell his grandma how he had obeyed his daddy.

A car coming out of the barns

northbound mowed down the tender little figure. When passengers had leaped to the street and Motorman Robinson, shedding the first tears that have fallen from his eyes in fifteen years, reached for the unconscious, frail little form the boy's senses began to return, his dark eyelashes flickered and a weak smile lifted over his baby face. His words could scarcely be heard but Motorman Robinson's ear was close to the boy's mouth and Little Louis was retelling:

"I was a good boy, daddy; I was a good boy."

TULARE.
TULARE, March 25.—Charles McCarthy, aged 17, who was injured in an accidental explosion of 100 fulminate caps on the McCarthy ranch late last week, died this morning after two days of agony at a local sanatorium. Dr. Rosson, who was in surgical charge of the boy, stated today that there were over 1000 flesh wounds of more or less seriousness on the boy's entire face and body where bits of copper from the caps tore the flesh. Amputation of the left leg was determined upon as a last resort and the boy was too weak to rally from the shock.

GIRL'S SERIOUS CHARGE.

Man and Two Women Held on Her Allegation That She Was Made Prisoner by Them.
Lola Marland, Kate Adams and George Dudley, alias George Dudley, the latter proprietor of the Hotel Federal, No. 124 East Second street, are held at the Central Station while Police Secret Service Operatives Phillips and Perry investigate serious accusations against them, made by a 15-year-old girl whose name the police say is Rosa Roscoe.

According to the officers, Rosa left her home in Glendora several weeks ago because of trouble with her stepfather. She secured work here, and while seeking a new position, met the Marland and Adams women. She charges she was confined for two days in a rooming-house at No. 115 Wilkeson street, where Dudley and the two women were arrested yesterday.

LOSER DIAMOND BROOK.
An emerald and diamond brooch, valued at \$300, one of the choice pieces of Mrs. Grace W. Law's fine collection of jewelry, was lost by her Monday evening. Mrs. Law has asked the police to help her find it. Mrs. Law lives at No. 521 West Fourth street. In the center of the brooch is a large opal. Surrounding it are fifteen emeralds, cut square and each weighing half a carat. On either side of them are fifteen quarter-carat diamonds.

BURKE'S Dry Gin will please your guests like the best. It is unequalled for refined and delicate flavor.

SINGER SCORES HIT AT DINNER.

L. A. AMATEUR CLUB HAS A SURPRISE.
Song Prepared by One of the Members of the Club, Who Wins Applause at the Evening Entertainment at the Metropolitan Club.

If there was anyone at the Fellowship dinner last night who was not a member of the Los Angeles Athletic Club, he would have been a stranger. The fact that the club was holding an improving evening of song and music, and that the members of the club were present, was a surprise to the members of the club.

The Entertainment Club, which is a new organization, was formed last night. The club is composed of members of the Los Angeles Athletic Club, who are interested in the improvement of the club's social life. The club is now holding a series of evening entertainments, which are well attended by the members of the club.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

San Bernardino.
**WOULD DECLARE
PRIMARY VOID.**
San Bernardino Man Files In-
junction Motion.
Inspector Is Deposed
After a Long Battle.
Backholders of a Defunct
Mine Seek Redress.

(BY WIRE TO THE TIMES.)
SAN BERNARDINO, March 25.—
[Special Dispatch.] An unexpected
turn was given to the municipal cam-
paign today when E. J. Gilbert filed a
motion in court asking that City
Commissioner Bechtel be restrained from
conducting the election of last Tues-
day's primary election on the muni-
cality.

He also asks that the city be re-
strained from paying the cost of the
election, that the name of W. J. Guthrie
be placed on the ballot as the candi-
date for City Attorney, and that the
primary be declared void. The matter
will come on for trial Monday. It is
understood that the primary was de-
clared void because of the alleged in-
competence of the inspectors.

INSPECTOR DEPOSED.
The inspectors delivered the ulti-
mate to the Beekeepers' Association
last night when they declared the
primary void. The inspectors were
deposed after a long battle. The
primary was declared void because of
the alleged incompetence of the in-
spectors.

**BACKHOLDERS OF A DEFUNCT
MINE SEEK REDRESS.**
The backholders of a defunct mine
are seeking redress. The mine was
defunct because of the alleged in-
competence of the inspectors.

**MUCH INTEREST
IS MANIFESTED**
SANTA BARBARA DIVIDED OVER
COMING ELECTION.
Prohibitionists Would Cut
Down Restaurants and Saloons to
Once Selling Intoxicants and
Others Fear the Effect Upon the
Welfare of the City.

SANTA BARBARA, March 25.—
This city is divided over the
forthcoming "wet" and "dry"
election. With the battle just fairly
begun, the question that is being
debated is what effect the vot-
ing out of the saloons would have
on the general prosperity of the city.

The city is cosmopolitan and, with
its suburban suburb of Montecito,
probably has a more liberal sprinkling
of millionaires and near-millionaires
than any other town on the Coast.
Most of the wealthy citizens are more
or less of the Bohemian type. Will
they get sore at the town and desert
it if the law prohibits them from drop-
ping into their favorite grog shop to
exchange smiles with their friends?

So far in the campaign these
wealthy citizens have not voiced their
stand and the "wets" declare it cer-
tain that if the social elite now here
do not leave it is highly improbable
that any new ones will come here.
The "drys" are openly avowing
that the city can get along well
enough without the drinking man, be
he a millionaire or a pauper. A
"white wing" force, and a "clean" city
will be a magnet to the kind of folks
that go to make up the ideal com-
munity.

Whatever the result, the "drys"
have initiated a most aggressive cam-
paign and it is being enthusiastically
rejoiced by the "wets." The "drys"
have announced by both sides that the
mid-summer which characterized the
fight of three years ago when the anti-
saloon forces lost by nearly 500 votes,
will not be indulged in this time. It
is said that both sides have plenty of
financial backing and that they pro-
pose to use money freely in a cam-
paign of education and not one of
coercion or ridicule.

SENSATIONAL SESSION.
Ventura Young Man Is Indicted by
Grand Jury San Bernardino. He
Is Charged With Rape.

VENTURA, March 25.—There was
a sensational session of the grand jury
yesterday which terminated last night
in three indictments being returned
against Everett S. Barrows, son of P.
P. Barrows, a pioneer leading mar-
chant of the Ojai Valley and located
at Nordhoff. The charge against young
Barrows, as returned in the indict-
ment, was that of felony. For some
time there have been rumors of trouble
at Nordhoff, the name of Barrows
having been prominently mentioned
in the matter. The entire Ojai Valley
has been considerably torn up in
a social war over the affair and the
ugly rumors about, and at length the
District Attorney was sought and took
cognizance of the matter by reporting
it to the grand jury for action.

This is the second session the grand
jury has had in consideration of the
charges and it has moved cautiously
and slowly before taking any action
owing to the standing of the Barrows
family in the county. The case, it is
said, involves a number of boy scouts,
with which organization young Bar-
rows is identified. It was not neces-
sary for the court to issue a bench
warrant for the accused man was
present and furnished bonds on each
indictment in the sum of \$10,000 each.
Monday, March 25, is the date set for
defendant to appear and plead to the
indictments.

An unknown Mexican was found
in a lodging-house at Oxnard last
night with his neck broken. Just
how it came about is something the
authorities would like to find out, and
are investigating. They are seeking
for other Mexicans who came to the
lodging-house with the man early in
the evening the night before and who
have disappeared.

C. C. Neidham and son of this city
had a narrow escape from automobile
injury while returning from Los An-
geles Sunday night. Near Owens-
mouth the Neidham machine ran
into another machine standing in the
roadway and which had no rear light.
The Neidham car struck the
wheel of the other car, taking it off,
but in swerving aside the Neidham
machine was thrown over the edge of a
ditch and the driver, C. C. Neidham, was
thrown clear of his car, but his young
son, Raymond, was caught
beneath the machine. He was extri-
cated without suffering any injury
whatsoever.

Buy in Line of City's Growth!

—the city is growing to Venice—It is growing at a tremendously rapid rate and soon the two will be joined!
—homebuilding companies are now entering this district and are planning the erection of a number of homes—hundreds of homes are already built and thousands more will be built in the next two years!—the city must grow southwest, and its logical line is toward Venice!
—acreage here is increasing at the rate of \$100 per acre monthly!—\$10,000 cash will make \$50,000!—enormous profits are made in subdividing land bought at wholesale and selling at RETAIL!
—you need not do the work!—let others handle details—we will show you how!
—send for our big map showing the fastest growing section of the city!
—an auto waits to take you out!

panese woman and very near to a num-
ber of little boys then noted that their
luck. Fortunately no one was injured.

A three-day barbecue is in store for
suburbanites of Southern California in
the midland town of Capistrano. The
barbecue will signal the opening of a
new hotel at that point, which is
expected to fill a long-felt want to
attract traveling between Los An-
geles and San Diego. The much-needed
building will be the result of the re-
modeling of the old Marco Puster
residence, the scene of many big gather-
ings in the past. The barbecue will
be an old-time Spanish affair.

Old Age.
Old age as it comes in the orderly
process of nature is a beautiful and
majestic thing. It stands for experi-
ence, knowledge, wisdom, counsel.
That is old age as it should be, but
old age as it often is means poor
digestion, torpid bowels, a sluggish
liver and a general feeling of ill-
health, despondency and misery. This
old age is not the old age of nature,
unconquered. One of Chamberlain's
Tablets taken immediately after sup-
per will improve the digestion, tone
up the liver and regulate the bowels.
That feeling of despondency will give
way to one of hope and good cheer.
